PROFESSIONAL SUMMARY

Experienced IT professional with a strong background in system administration, security, and access management, seeking to leverage my skills in Identity Access Management and System Administration to ensure system reliability, user access security, and compliance with internal IT policies.

EXPERIENCE

Freelance Full Stack Developer

Oct 2023 - Present

Dubai and Kuwait | Dubai and Kuwait

- Designed and deployed full-stack web applications for 6+ clients, improving operational efficiency and customer engagement by 25%.
- Built and secured RESTful APIs with role-based access control, reducing unauthorized access incidents by 40%.
- Engineered real-time chat systems with WebSockets and Redis, supporting 3,000+ concurrent users and cutting communication delays by 70%.

EDUCATION

Meru University of Science and Technology

Bachelor's, Computer Security and Forensics | Meru, Kenya

Kamuiru Boys High School, Kirinyaga

Jan 2018 - Apr 2022

High School Certificate

PROJECTS

SupportGeniousAI (AI-Powered Customer Support SaaS)

Sep 2025 - Jan 2026

Multi-Tenant customer support platform

- Architected a real-time support platform enabling instant client-agent messaging, reducing ticket resolution time by 30%.
- Integrated Redis + WebSockets to handle 5,000+ concurrent connections, lowering latency by 40% during peak usage.
- Secured multi-role access with JWT authentication, ensuring 99.9% uptime and compliance with data protection standards.

E-Commerce Fashion Marketplace

Mar 2025 - Jul 2025

Fashion Selling Store

- Delivered a full-stack e-commerce platform supporting Stripe, PayPal, and M-Pesa, enabling 100+ successful transactions with zero failures.
- Designed a responsive UI with real-time feedback, increasing checkout completion rates by 35%.

Trip Planner & Route Management System

SpotterAI

- Engineered a trip planning application with Leaflet.js and Fabric.js, enabling logistics teams to visualize routes more effectively and reducing planning time by 40%.

Customer Support Ticket System

- Integrated WebSockets for real-time chat, reducing communication delays by 80% and improving resolution speed.

SKILLS

Programming Languages: Python, JavaScript

Frontend: React, React-router, HTML, CSS

Backend: Django, Django Rest FrameWork, Restful API

Databases: PostgreSQL, MySQL, Redis

DevOps & Tools: Docker, Git, GitHub, GCP, AWS, CI/CD

Testing and QA: Postman, Unit Testing, Pytest, Selenium

Authentication & Security: JWT, Session Auth, API Security, Active Directory administration, User access and permission management, Google Admin Console, IT security best practices

Integrations & APIs: Stripe Payments, Payment Systems, Twilio, Salesforce, Websockets, Socket Programming

Networking & Security: Nmap, Wireshark, Metasploit, Linux

TRAINING & CERTIFICATIONS

- CS50 Web Programming with Python and JavaScript
- Cisco Networking Fundamentals
- Hack The Box Labs (Cybersecurity Training)

LANGUAGES

- English (fluent)
- Kiswahili (fluent)
