PROFESSIONAL SUMMARY

Highly motivated and detail-oriented professional with a strong background in computer science and a keen interest in tax policy, seeking to leverage my analytical and problem-solving skills to drive growth and improvement in the tax policy field.

EXPERIENCE

Freelance Full Stack Developer

Oct 2023 - Present

Dubai and Kuwait | Dubai and Kuwait

- Designed and deployed full-stack web applications for 6+ clients, improving operational efficiency and customer engagement by 25%
- Built and secured RESTful APIs with role-based access control, reducing unauthorized access incidents by 40%
- Engineered real-time chat systems with WebSockets and Redis, supporting 3,000+ concurrent users and cutting communication delays by 70%
- Automated deployments via CI/CD pipelines on Render and Vercel, reducing release cycles from days to hours and increasing productivity by 30%

EDUCATION

Meru University of Science and Technology

Jan 2018 - Apr 2022

Bachelor's, Computer Security and Forensics | Meru, Kenya

Kamuiru Boys High School, Kirinyaga

High School Certificate

PROJECTS

SupportGeniousAI (AI-Powered Customer Support SaaS)

Sep 2025 - Jan 2026

Multi-Tenant customer support platform

- Architected a real-time support platform enabling instant client-agent messaging, reducing ticket resolution time by 30%
- Integrated Redis + WebSockets to handle 5,000+ concurrent connections, lowering latency by 40% during peak usage
- Secured multi-role access with JWT authentication, ensuring 99.9% uptime and compliance with data protection standards

E-Commerce Fashion Marketplace

Mar 2025 - Jul 2025

Fashion Selling Store

- Delivered a full-stack e-commerce platform supporting Stripe, PayPal, and M-Pesa, enabling 100+ successful transactions with zero failures
- Designed a responsive UI with real-time feedback, increasing checkout completion rates by 35%
- Built scalable admin product management tools, reducing manual inventory updates by 50%

Trip Planner & Route Management System

SpotterAI

- Engineered a trip planning application with Leaflet.js and Fabric.js, enabling logistics teams to visualize routes more effectively and reducing planning time by 40%
- Enabled drivers to log and track routes (off-duty, sleeper berth, etc.), cutting reporting errors by 30%

Customer Support Ticket System

- Integrated WebSockets for real-time chat, reducing communication delays by 80% and improving resolution speed
- Incorporated AviationStack API for flight data, enabling automated booking confirmations and reducing manual errors by 25%

SKILLS

Programming Languages: Python, JavaScript

Frontend: React, React-router, HTML, CSS

Backend: Django, Django Rest FrameWork, Restful API

Databases: PostgreSQL, MySQL, Redis

DevOps & Tools: Docker, Git, GitHub, GCP, AWS, CI/CD

Testing and QA: Postman, Unit Testing, Pytest, Selenium

Authentication & Security: JWT, Session Auth, API Security

Integrations & APIs: Stripe Payments, Payment Systems, Twilio, Salesforce, Websockets, Socket Programming

Networking & Security: Nmap, Wireshark, Metasploit, Linux

Tax Policy: Tax law, Policy analysis, Regulatory trends

TRAINING & CERTIFICATIONS

- CS50 Web Programming with Python and JavaScript
- Cisco Networking Fundamentals
- Hack The Box Labs (Cybersecurity Training)

LANGUAGES

- English (fluent)
- Kiswahili (fluent)
