PROFESSIONAL SUMMARY

Full Stack Software Engineer with expertise in .NET Core, FinTech domain, and payment integration. Proven track record of delivering secure, scalable web applications and real-time systems, with a strong focus on testing and QA, DevOps practices, and leadership. Skilled in translating product requirements into engineering solutions that improve customer satisfaction, operational efficiency, and revenue growth.

EXPERIENCE

Freelance Full Stack Developer

Oct 2023 - Present

| Dubai and Kuwait

- Designed and deployed full-stack web applications for 6+ clients, improving operational efficiency and customer engagement by 25%.
- Built and secured RESTful APIs with role-based access control, reducing unauthorized access incidents by 40%.
- Engineered real-time chat systems with WebSockets and Redis, supporting 3,000+ concurrent users and cutting communication delays by 70%.
- Automated deployments via CI/CD pipelines on Render and Vercel, reducing release cycles from days to hours and improving development workflows by 30%.
- Optimized application performance, achieving 25% faster load times and higher user retention rates.

EDUCATION

Meru University of Science and Technology

Bachelor's, Computer Security and Forensics | Meru, Kenya

Kamuiru Boys High School, Kirinyaga

Jan 2018 - Apr 2022

High School Certificate

PROJECTS

SupportGeniousAI (AI-Powered Customer Support SaaS)

Sep 2025 - Jan 2026

Multi-Tenant customer support platform

- Architected a real-time support platform enabling instant client-agent messaging, reducing ticket resolution time by 30% and improving customer satisfaction scores by 25%.
- Integrated Redis + WebSockets to handle 5,000+ concurrent connections, lowering latency by 40% during peak usage.
- Secured multi-role access with JWT authentication, ensuring 99.9% uptime and compliance with data protection standards.
- Streamlined ticket lifecycle management, improving customer satisfaction scores by 25% and reducing manual updates by 50%.

E-Commerce Fashion Marketplace

Mar 2025 - Jul 2025

Fashion Selling Store

- Delivered a full-stack e-commerce platform supporting Stripe, PayPal, and M-Pesa, enabling 100+ successful transactions with zero failures and improving sales by 20%.
- Designed a responsive UI with real-time feedback, increasing checkout completion rates by 35% and reducing cart abandonment by 15%.
- Built scalable admin product management tools, reducing manual inventory updates by 50% and improving product visibility by 30%.

Trip Planner & Route Management System

SpotterAI

- Engineered a trip planning application with Leaflet.js and Fabric.js, enabling logistics teams to visualize routes more effectively and reducing planning time by 40%.
- Enabled drivers to log and track routes (off-duty, sleeper berth, etc.), cutting reporting errors by 30% and improving route optimization by 25%.

Customer Support Ticket System

- Integrated WebSockets for real-time chat, reducing communication delays by 80% and improving resolution speed by 30%.
- Incorporated AviationStack API for flight data, enabling automated booking confirmations and reducing manual errors by 25%.

SKILLS

Programming Languages: .NET Core, C#, JavaScript, Python

Frontend: React, React-router, HTML, CSS

Backend: ASP.NET, ASP.NET Core, Django, Django Rest Framework

Databases: MS SQL, Redis, PostgreSQL, MySQL

DevOps & Tools: Docker, Git, GitHub, GCP, AWS, CI/CD

Testing and QA: Postman, Unit Testing, Pytest, Selenium

Authentication & Security: JWT, Session Auth, API Security

Integrations & APIs: Stripe Payments, Payment Systems, Twilio, Salesforce, WebSockets, Socket Programming

Networking & Security: Nmap, Wireshark, Metasploit, Linux

TRAINING & CERTIFICATIONS

- CS50 Web Programming with Python and JavaScript
- Cisco Networking Fundamentals
- Hack The Box Labs (Cybersecurity Training)

LANGUAGES

- English (fluent)
- Kiswahili (fluent)
