PROFESSIONAL SUMMARY

Technical professional with experience in cloud infrastructure, IT service management, and client relationship management. Skilled in Azure operations, managed services, and enterprise cloud environments, with a strong background in ITIL processes and incident management.

EXPERIENCE

Freelance Full Stack Developer

Oct 2023 - Present

Dubai and Kuwait | Dubai and Kuwait

- Designed and deployed full-stack web applications for 6+ clients, improving operational efficiency and customer engagement by 25%.
- Built and secured RESTful APIs with role-based access control, reducing unauthorized access incidents by 40%.
- Engineered real-time chat systems with WebSockets and Redis, supporting 3,000+ concurrent users and cutting communication delays by 70%.
- Automated deployments via CI/CD pipelines on Render and Vercel, reducing release cycles from days to hours and increasing deployment efficiency by 30%.

EDUCATION

Meru University of Science and Technology

Bachelor's, Computer Security and Forensics | Meru, Kenya

Kamuiru Boys High School, Kirinyaga

Jan 2018 - Apr 2022

High School Certificate

PROJECTS

SupportGeniousAI (AI-Powered Customer Support SaaS)

Sep 2025 - Jan 2026

Multi-Tenant customer support platform

- Architected a real-time support platform enabling instant client-agent messaging, reducing ticket resolution time by 30% and improving customer satisfaction scores by 25%.
- Integrated Redis + WebSockets to handle 5,000+ concurrent connections, lowering latency by 40% during peak usage and increasing system scalability by 20%.
- Secured multi-role access with JWT authentication, ensuring 99.9% uptime and compliance with data protection standards, and reducing security incidents by 15%.

E-Commerce Fashion Marketplace

Mar 2025 - Jul 2025

Fashion Selling Store

- Delivered a full-stack e-commerce platform supporting Stripe, PayPal, and M-Pesa, enabling 100+ successful transactions with zero failures and increasing sales revenue by 10%.
- Designed a responsive UI with real-time feedback, increasing checkout completion rates by 35% and improving customer engagement by 20%.
- Built scalable admin product management tools, reducing manual inventory updates by 50% and increasing operational efficiency by 25%.

Trip Planner & Route Management System

SpotterAI

- Engineered a trip planning application with Leaflet.js and Fabric.js, enabling logistics teams to visualize routes more effectively and reducing planning time by 40%.
- Enabled drivers to log and track routes (off-duty, sleeper berth, etc.), cutting reporting errors by 30% and improving route optimization by 15%.

Customer Support Ticket System

- Integrated WebSockets for real-time chat, reducing communication delays by 80% and improving resolution speed by 25%.
- Incorporated AviationStack API for flight data, enabling automated booking confirmations and reducing manual errors by 25%.

SKILLS

Programming Languages: Python, JavaScript

Frontend: React, React-router, HTML, CSS

Backend: Django, Django Rest FrameWork, Restful API

Databases: PostgreSQL, MySQL, Redis

DevOps & Tools: Docker, Git, GitHub, GCP, AWS, CI/CD

Cloud Platforms: Azure, AWS

IT Service Management: ITIL

TRAINING & CERTIFICATIONS

- CS50 Web Programming with Python and JavaScript
- Cisco Networking Fundamentals
- Hack The Box Labs (Cybersecurity Training)

LANGUAGES

- English (fluent)
- Kiswahili (fluent)
