PROFESSIONAL SUMMARY

Results-driven Lead Engineer with 5+ years of experience in process automation projects, proficient in Emerson Process Management products, and skilled in project management, OT cybersecurity solutions, and collaboration tools. Proven track record of successful project delivery, with expertise in designing and deploying secure, scalable systems, and leading teams to achieve project goals.

EXPERIENCE

Freelance Full Stack Developer

Oct 2023 - Present

Dubai and Kuwait | Dubai and Kuwait

- Designed and deployed full-stack web applications for 6+ clients, improving operational efficiency and customer engagement by 25%.
- Built and secured RESTful APIs with role-based access control, reducing unauthorized access incidents by 40%.
- Engineered real-time chat systems with WebSockets and Redis, supporting 3,000+ concurrent users and cutting communication delays by 70%.
- Automated deployments via CI/CD pipelines on Render and Vercel, reducing release cycles from days to hours and increasing productivity by 30%.

EDUCATION

Meru University of Science and Technology

Bachelor's, Computer Security and Forensics | Meru, Kenya

Kamuiru Boys High School, Kirinyaga

Jan 2018 - Apr 2022

High School Certificate

PROJECTS

SupportGeniousAI (AI-Powered Customer Support SaaS)

Sep 2025 - Jan 2026

Multi-Tenant customer support platform

- Architected a real-time support platform enabling instant client-agent messaging, reducing ticket resolution time by 30%.
- Integrated Redis + WebSockets to handle 5,000+ concurrent connections, lowering latency by 40% during peak usage.
- Secured multi-role access with JWT authentication, ensuring 99.9% uptime and compliance with data protection standards.
- Streamlined ticket lifecycle management, improving customer satisfaction scores by 25%.

E-Commerce Fashion Marketplace

Mar 2025 - Jul 2025

Fashion Selling Store

- Delivered a full-stack e-commerce platform supporting Stripe, PayPal, and M-Pesa, enabling 100+ successful transactions with zero failures.
- Designed a responsive UI with real-time feedback, increasing checkout completion rates by 35%.
- Built scalable admin product management tools, reducing manual inventory updates by 50%.

Trip Planner & Route Management System

SpotterAI

- Engineered a trip planning application with Leaflet.js and Fabric.js, enabling logistics teams to visualize routes more effectively and reducing planning time by 40%.
- Enabled drivers to log and track routes (off-duty, sleeper berth, etc.), cutting reporting errors by 30%.

SKILLS

Programming Languages: Python, JavaScript

Frontend: React, React-router, HTML, CSS

Backend: Django, Django Rest Framework, Restful API

Databases: PostgreSQL, MySQL, Redis

DevOps & Tools: Docker, Git, GitHub, GCP, AWS, CI/CD

Testing and QA: Postman, Unit Testing, Pytest, Selenium

Authentication & Security: JWT, Session Auth, API Security

Integrations & APIs: Stripe Payments, Payment Systems, Twilio, Salesforce, Websockets, Socket Programming

Networking & Security: Nmap, Wireshark, Metasploit, Linux

TRAINING & CERTIFICATIONS

- CS50 Web Programming with Python and JavaScript
- Cisco Networking Fundamentals
- Hack The Box Labs (Cybersecurity Training)

LANGUAGES

- English (fluent)
- Kiswahili (fluent)
